

Cryogenic spares

Silver Solder

Silver solder for stainless steel and electrical wiring. Finished in 450 mm rod form. Available in 1.0, 1.5, or 2.4 mm diameters.

Data

Tensile strength	300 to 400 N/mm ²
Electrical resistivity	1.6 x 10 ⁻⁷ Ω/m at 20° C
Bonding temperature	590° C
Melting temperature	660° C
Length	450 mm
